Global Assessment Report of UNEP + Snippet from the
"Population Control Agenda" by: Stanley K. Monteith, M.D.

Many civilizations have flourished, flowered, seeded and died and their people never understood what had happened or why. Today we have world-wide civilization and its death could mean the end of humanity; but today we also have the knowledge that can either doom or save us: which will we accept?

Most Europeans consider themselves Christians living in a Christian society but, cocooned in their faith, they refuse to consider that the crime and corruption now contaminating politics, education, physical and mental health, and family is only explained when we admit that our Christian culture has been subverted.

Where is the Christian religion damning unjustified wars? Where the one not bogged in dead dogma? Though our Leader clearly says our God is God of the living not of the dead. In all honesty our culture is now dying in spirit, morals and in mind and those who speak out are not publicized. WHY?

On our lifetruth site are quotes from many respected people of past and present let's hear a little of what is not so well reported.

FIRST: In the UNESCO Courier of November 1991, Jacques Cousteau wrote: "The damage people cause to the planet is a function of demographics - it is equal to the degree of development. One American burdens the earth much more than twenty Bangladeshis ... In order to stabilize world population, we must eliminate 350,000 people per day. It is a horrible thing to say, but it's just as bad not to say it."

Bertrand Russell, in his book, "The Impact of Science on Society," wrote, "At present the population of the world is increasing ... War so far has had no great effect on this increase ... I do not pretend that birth control is the only way ... If a Black Death could be spread throughout the world once in every generation, survivors could procreate freely without making the world too full ... the state of affairs might be somewhat unpleasant, but what of it? Really high-minded people are indifferent to suffering, especially that of others."

Negative Population Growth Inc. of Teaneck, New Jersey recently circulated a letter stating their long-range goal. "We believe that our goal for the United States should be no more than 150 million, our size in 1950. For the world, we believe our goal should be a

population of not more than two billion, its size shortly after the turn of the century."

In the **Global Assessment Report of UNEP** (a United Nations sponsored study group), Phase One Draft, Section 9, the authors quoted an expert who suggested that: "A reasonable estimate for an industrialized world society at the present North American material standard of living would be 1 billion. At the more frugal European standard of living, 2 to 3 billion would be possible."

...
Speaking at a round-table discussion group meeting in San Francisco, ... organized by Mikhail Gorbachev, former Director of the Soviet KGB, and later President of Russia."... in the fall of 1996, Dr. Sam Keen, a New Age writer and philosopher stated that there was strong agreement that religious institutions have to take a primary responsibility for the population explosion. He went on to say that, "We must speak far more clearly about sexuality, contraception, about abortion, about values that control the population, because the ecological crisis, in short, is the population crisis. Cut the population by 90% and there aren't enough people left to do a great deal of ecological damage."

Mr. Keen's remarks were met with applause from the assembled audience made up largely of New Age adherents, Socialists, Internationalists and occultists." End Quotes.**S.J.**

Monteith, M.D. - Quote: "One of the most difficult concepts for Americans to accept is that there are human beings dedicated to coercive population control and genocide. Many readers will acknowledge that our government is helping to finance the Red Chinese program of forced abortion, forced sterilization, infanticide, and control of the numbers of live births. Most readers will accept the fact that our nation is helping to finance the United Nations' world-wide "family planning program," a form of population control. Most rational men and women, however, find it impossible to believe that such programs are really part of a "master plan" to kill off large segments of the world's population.

"I shall have to admit that I studied the politics of AIDS (HIV disease) for over a decade before I finally came to a horrifying conclusion. The real motivation behind efforts to block utilization of standard public health measures to control further spread of the HIV epidemic was "population control."

"That was not an easy concept for me to acknowledge, despite the fact that I had long recognized that the twentieth century has been the bloodiest hundred-year period in all recorded human history.

"It was not until I journeyed to Elberton, Georgia, stood within the dark shadows of the great Druid-like monument built there, and read the words engraved on the massive stone pillars of that structure that I finally came to accept the truth. At that point it became obvious that just as our Lord has given mankind Ten Commandments to guide our lives, so, too, those from "the dark side" have been given their instructions ... and explains why efforts to approach the AIDS epidemic from a logical point of view have been consistently thwarted.

"Before you scoff, and reject my suggestion as some sort of madness, check out my references, then try to disprove my conclusions. ... "On the other hand, should you determine that my assessment is correct, or even partially correct, then you have a moral obligation to decide just what part you intend to play in response to the unfolding world genocide

"You must never forget the warning recorded for posterity by Martin Niemoeller, the Lutheran minister who lived in Hitler's Germany during the 1930s and 1940s. His words echo down to us over succeeding decades: "In Germany they came first for the Communists, and I didn't speak up because I wasn't a Communist ... after coming for the Jews the Nazis came for both Catholics and Protestants. Why is that fact never mentioned?

"The question that I am most frequently asked is, "How can you possibly believe that there are people who intend to kill off large segments of the world's population?" My answer is really quite simple. I hold that belief because I have read their writings."

I believe they are telling the truth. Just as Adolf Hitler wrote of his plans for Europe in "Mein Kampf" (My Plan), so, too, those who intend to depopulate large segments of the earth have written of the necessity of limiting the world's population. ... The fact that the vast majority of Americans have never heard of their intent; ...or of "The Plan" and "The Hierarchy", attests to the degree of control that exists over what the American [and world] people have been allowed to know about

the occultic forces which are working within our society today."

"As a researcher on the subject of the occult, I regularly receive letters and publications from the Lucis Trust ... Because the name "Lucifer" had such a bad connotation in those days, Alice Bailey changed the name of her organization from "The Lucifer Publishing Company" to "The Lucis Trust." The nature and beliefs of her organization, however, have always remained the same ... The supernatural powers that still energize The Lucis Trust today certainly come from the same dark, spiritual forces that energized Madame Blavatsky, Adolf Hitler, and Margaret Sanger in generations past. ... [their publications] regularly refer to "The Plan" for humanity that has been established by "The Hierarchy." Part of that plan is inscribed on the great granite pillars of ... "The Georgia Guidestones." ... Full documentation on these subjects will be found in my soon-to-be-published book, "None Dare Call It Genocide...." End Quote.

Thomas Jefferson; 3rd US President: *"Single acts of tyranny may be ascribed to the accidental opinion of the day; but a series of oppressions, began at a distinguished period, and pursued unalterably through every change of ministers, too plainly prove a deliberate systematical plan of reducing us to slavery".*

Our site has evidence to help those concerned understand our situation. We need a broad base but don't need enter the black mire of the dark side.

Compulsory education to Humanist philosophy; increasing crime, poor health services and barbarous 'cures' for major killers such as cancer, heart problems, etc: become logical only when viewed in relation to subversive information controls operating over long periods in leading areas of academia, politics and health.

**We do need see that there is evil
but don't need study it to see the light!**

**See the above in light of information on this site:
See that there is a dark side. Also see that those involved are not shady people hiding in the shadows or acting in secrecy. To have a following they have to act in public. That they are now so unknown to so many of us is because, over the last century, they have gained the power of finance and commerce to influence governments and all their services; these services, in turn, now control community thinking.**
